Downtown
Northampton
Association

Our mission is simple - improve the business and cultural strength of downtown Northampton through exciting programs, beautification efforts, and advocacy on the issues that matter.

The Downtown Northampton Association was formed with one goal in mind - to keep Downtown Northampton western Massachusetts' primary destination for cultural events, the arts, high-quality entertainment and shopping.

We can't do it alone.

It takes dedicated people with a strong vision working together to make these things happen. The DNA is funded entirely through voluntary support from businesses, residents, property owners and other stakeholder groups. We need your help.

Join us.

A thriving Downtown benefits everyone. The success of businesses and cultural organizations equates to more revenue to support Northampton's continued growth. Property values go up, tourism increases, employees seek jobs here, and the city remains a hub of innovation, entrepreneurship, and culture.

Keep the momentum going.

We've gotten the ball rolling - Amy Cahillane, a seasoned local advocate recently joined us as the DNA's Executive Director, responsible for focusing our efforts and plans. We've taken steps to ensure that the streets will have flowers and that exciting events like sidewalk sales and Arts Night Out will make downtown the exciting place to be this summer. With your support, the great things you expect of downtown will keep happening, and new ideas will come to life.
